Chairman Martin  
Federal Communications Commission  
445 12<sup>th</sup> Street SW  
Washington, DC 20036

Dear Chairman Martin and Commission Members,

On behalf of the Clark County School District, School-Community Partnership Program, I am writing this letter in support of the radio station KLUC. For the past three years, KLUC has been instrumental in providing numerous volunteer hours and employee talent in a week-long school supply drive that provides much needed school supplies to over 35 at-risk elementary and middle schools.

Each year the Clark County School District is faced with the task of providing educational materials for additional learning activities for their students. These additional learning activities enhance the classroom curriculum and boost the learning potential of their students. It is a known fact that many teachers spend money out of their own meager budgets to provide school supplies and materials for students who live in poverty and cannot buy their own. KLUC Radio and the Morning Zoo deejays commit to a weeklong "Save our Schools" supply drive to appeal to the community to donate supplies to these underprivileged children. Their efforts have allowed over 38,000 school children to receive supplies that their families could not afford on their own.

We are able to serve our neediest children due to community partners like KLUC. Businesses and organizations like KLUC that are committed to our mission of connecting business and community resources with school resources to enrich the educational experience and increase student achievement are invaluable. KLUC is a phenomenal community partner. On behalf of the School-Community Partnership Program, I respectfully request that you and the members of the commission decline from imposing any rules or regulations that would inhibit KLUC radio's ability to provide necessary resources to our students.

Sincerely,

Beverly Mason, Assistant Director  
School-Community Partnership Program
